

New Kia Sonet

The best just got better

Movement that inspires

We are
Motus

The best just got better.

Get used to more SUV than ever.

The Kia Sonet goes fast forward on comfort, style and design. Get comfortable in the stylish, connected and spacious cabin.

Enjoy simple controls and intuitive technology. It's a compact, classy dynamo with genuine SUV credentials. Get used to unlimited curiosity and inspiration. Get used to the best, only better.

Start with style.

Along with its cross-over capabilities, the new Sonet features sporty SUV contours and trim elements. A versatile rear hatch makes every journey a breeze. Stylish but fun, functional but future forward.

Striking headlights

The alluring shape of the Sonet's front grill and light housings is inspired by the eyes and nose of a tiger.

Stylish rear light clusters

Rear tail light clusters feature iconic Heartbeat graphics. They emphasize design continuity with the front headlamps.

Sporty, sturdy profile

The sturdy C-pillars behind the rear doors feature sporty trim accents that highlight the shapes of the tailgate and rear side windows.

Diamond-cut 16-inch alloy wheels

Alloy wheels with smooth, angled silver spoke elements give the impression of motion, even when standing still.

Get comfortable. Stay connected.

Begin every journey from a commanding height, with plenty of room to stretch. Enjoy refreshingly simple connectivity to help you stay informed and entertained.

Get moving with sufficient comfort and technology to keep your mind at ease.

8-inch touch screen infotainment

In addition to its easy touch controls for the audio system, the 8-inch audio display can show the screen image of a paired, compatible mobile phone by wireless phone projection using the Android Auto and Apple Carplay apps.

Rear View Monitor (RVM)

When the transmission is in reverse, the 8-inch audio display shows the area behind the Sonet, with parking guidelines superimposed on the video image.

4.2-inch mono TFT LCD screen

A full-colour instrument cluster keeps you abreast of what's going on under the hood.

Precision-enhanced simplicity.

A well-matched drivetrain offers reliable and invigorating performance and handling around town. Safety and performance are integrated better than ever before thanks to computational power and a new platform design.

6 airbags and remarkable rigidity*

The new Sonet offers the protection of a 6-airbag SRS system. High strength steel is applied throughout to improve rigidity, redirect impact forces, and protect the cabin and its occupants.

Hill-start Assist Control (HAC)

When you are stopped on an incline, HAC momentarily holds the brake as you move your foot to the accelerator, so you can make a safe, smooth start.

Parking Distance Warning (PDW)

With ultrasonic sensors mounted on the rear bumpers, PDW warns of any obstacles when you maneuver into tight spaces.

7-speed DCT, CVT and 6-speed MT

The turbo EX 1.0T model offers faster shifting with a 7-speed dual-clutch transmission, while LX, EX and SX models offer a CVT automatic transmission. A 6-speed manual transmission is available in the LX model only.

Bluetooth with voice recognition

Ventilation for 2nd row passengers

Interior Trim.

Stylish all-black interior

Black artificial leather

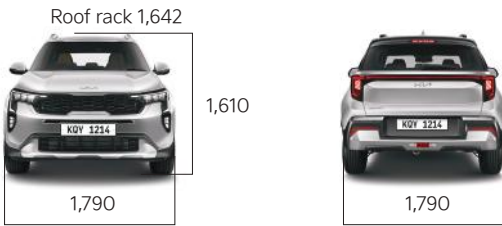

Black cloth

Dimensions (mm)

16-inch tire based

Overall length	4,120	Overhang (front)	833
